1993 Index
IEEE Communications Magazine
Vol. 31

This index covers all technical items — papers, correspondence, reviews, etc. — that appeared in this periodical during 1993, and items from previous years that were commented upon or corrected in 1993.

The Author Index contains the primary entry for each item, listed under the first author's name, and cross-references from all coauthors. The Subject Index contains several entries for each item under appropriate subject headings, and subject cross-references.

It is always necessary to refer to the primary entry in the Author Index for the exact title, coauthors, and comments/corrections.

AUTHOR INDEX

A

Aboudharam, Marc, *see* Cancer, Emilio, *COM-M Mar 93* 38-47

Ahmadi, Hamid, and Arvind Krishna. Review of 'Mobile Radio Communications' (Steele, R.; 1992); *COM-M Nov 93* 10, 13, 16

Akselsen, Sigmund, Arne Ketil Eidsvik, and Trine Folkow. Telemedicine and ISDN; *COM-M Jan 93* 46-51

Aldridge, Anne, *Guest Ed., see* Omidyar, Cambyse Guy, *Guest Ed., COM-M Sep 93* 30-33

Allen, Robert E. A view of divestiture, ten years later; *COM-M Dec 93* 18-19

Allmis, Susanna. Implementing a flexible synchronous network; *COM-M Sep 93* 52-55

Andrews, Fred. An appreciation—Eric Eden Summer; *COM-M Feb 93* 10

Aoki, Toshiharu. Future switching system requirements; *COM-M Jan 93* 34-38

Aoyama, Tomonori, Ikuo Tokizawa, and Ken-ichi Sato. ATM VP-based broadband networks for multimedia services; *COM-M Apr 93* 30-39

Appeldorn, Menso, Roberto Kung, and Roberto Saracco. TMN + IN = TINA; *COM-M Mar 93* 78-85

Arnbak, Jens C. The European (r)evolution of wireless digital networks; *COM-M Sep 93* 74-82

Azegami, Moriaki, and Hideaki Fujiyoshi. A systematic approach to intelligent building design; *COM-M Oct 93* 46-48

B

Baker, Albert D., *see* Burson, Audrey F., *COM-M Jan 93* 15-19

Barr, William J., Trevor Boyd, and Yuji Inoue. The TINA initiative; *COM-M Mar 93* 70-76

Bates, Richard J. S. Review of 'Optical Fiber Communications, Principles and Practice, 2nd edn.' (Senior, J. M.; 1992); *COM-M Dec 93* 11

Bean, Angelo, Desmond Wood, and W. Fairclough. Specifiying goal-oriented network management systems; *COM-M May 93* 30-36

Bechard, Keith, *see* Russo, Peter A., *COM-M Mar 93* 56-63

Bellisio, Jules A., *see* Hsing, T. Russell, *COM-M Jan 93* 62-68

Bennett, Ronnie Lee, and George E. Policello, II. Switching systems in the 21st century; *COM-M Mar 93* 24-28

Bernstein, Robert J. Copyrights in the new age of interactive multimedia; *COM-M Dec 93* 60-62

Bose, Ranavir, *Guest Ed.*, Masahiro Taka, and Clint M. Hamilton, *Guest Eds.* Dependability of network services (special issue intro.); *COM-M Jun 93* 27

Boumezbeur, Rezki, and Luigi Logrippo. Specifying telephone systems in LOTOS; *COM-M Aug 93* 38-45

Boyd, Trevor, *see* Barr, William J., *COM-M Mar 93* 70-76

Brooks, Emily, *see* Russo, Peter A., *COM-M Mar 93* 56-63

Burgin, John, *see* Sutherland, Scott L., *COM-M Aug 93* 60-63

Burson, Audrey F., and Albert D. Baker. Optimizing communications solutions; *COM-M Jan 93* 15-19

Butler, Robert J., *see* Wiley, Richard E., *COM-M Dec 93* 57-59

C

Cain, Robert S. Review of 'Fundamentals of Optical SNA: Architecture, Protocols, and Implementation' (Kapoor, A.; 1992); *COM-M Jan 93* 70

Cameron, E. Jane, Nancy Griffeth, Yow-Jian Lin, Margaret E. Nilson, William K. Schnure, and Hugo Velthuijsen. A feature-interaction benchmark for IN and beyond; *COM-M Mar 93* 64-69

Cameron, E. Jane, and Hugo Velthuijsen. Feature interactions in telecommunications systems; *COM-M Aug 93* 18-23

Cancer, Emilio, Ron McCann, and Marc Aboudharam. IN rollout in Europe; *COM-M Mar 93* 38-47

Cao, Zhigang, *see* Yao, Yan, *COM-M Jul 93* 42-45

Chen, Cheng-Tie, *see* Hsing, T. Russell, *COM-M Jan 93* 62-68

Chen, Jeng-Chun J. Review of 'C++ Programming Style' (Cargill, T.; 1992); *COM-M Aug 93* 12

Chen, Junliang, Liemin Yan, and Yonglin Li. Switching systems and switching software development in China; *COM-M Jul 93* 56-60

Chen, Ming-Syan. Review of 'Client/Server Architecture (Berson, A.; 1992); *COM-M Jul 93* 10

Chen, Stephen, Masanobu Fujioka, and Gerard O'Reilly. Intelligent networking for the global marketplace; *COM-M Mar 93* 86-92

Chen, Yunqian. Driving forces behind China's explosive telecommunications growth; *COM-M Jul 93* 20-22

Ching, Yau-Chau, and H. Sabit Say. SONET implementation; *COM-M Sep 93* 34-40

Clarke, Donald E. A., and Tetsuya Kanada. Broadband: The last mile; *COM-M Mar 93* 94-100

Clendenin, John L. The chasm between competition and regulation and the MFJ; *COM-M Dec 93* 27-29

Corn, Randall L., *see* Russo, Peter A., *COM-M Mar 93* 56-63

Costa, Bruno. Lightwave communications: A still evolving technology (introduction to series on lightwave technology); *COM-M Jun 93* 58-59

Cox, Richard V., *Guest Ed., see* Jayant, Nikil, *Guest Ed., COM-M Nov 93* 24-25

D

Daneshmand, Mahmoud, and Catherine Savolaine. Measuring outages in telecommunications switched networks; *COM-M Jun 93* 34-38

Dawkins, Spencer. Review of 'The Internet Message: Closing the Book with Electronic Mail' (Rose, M. T.; 1992); *COM-M Oct 93* 13

SUBJECT INDEX

A

Abstracts
scanning the literature; abstracts from IEEE and Japanese literature. *COM-M Jan 93* 71; *Feb 93* 24; *Mar 93* 107; *Apr 93* 10, 12; *May 93* 98; *Jun 93* 22, 24; *Jul 93* 12; *Sep 93* 26, 29; *Oct 93* 10; *Nov 93* 102; *Dec 93* 70
Acoustic signal processing; **cf.** Speech processing
ANSI standards
emerging customer-oriented definitions of switched service availability and reliability. *Glossbrenner, Kenneth C.*, *COM-M Jun 93* 28-32
issues in FDDI standardization concerning low-cost fiber and twisted-pair media-dependent physical layers, SONET mapping, and FDDI follow-on LAN. *Jain, Raj*, *COM-M Sep 93* 98-105
Application-specific integrated circuits
VLSI technology and ASIC development in China for telecommunications. *Feng, Chongxi*, + , *COM-M Jul 93* 66-69
Artificial intelligence; **cf.** Intelligent systems
Asynchronous transfer mode
ATM-based multipath self-routing switch. *Henrion, M. A.*, + , *COM-M Apr 93* 46-52
ATM virtual path connection and virtual channel connection performance, fault, and traffic management functions developed by CCITT. *Farkouh, Stephen C.*, *COM-M May 93* 82-86
comparison of crossbar, sorter-based, unbuffered deflection-routed, and buffered Benes networks for ATM switching systems. *Zegura, Ellen Witte*, *COM-M Feb 93* 28-37†
cost-comparison of ATM-based passive optical network configurations in context of fiber-in-the-loop. *Verbiest, Willem*, + , *COM-M Jun 93* 60-66
cost-effective evolution from SONET synchronous transfer mode network to SONET/ATM network. *Wu, Tsong-Ho*, *COM-M Sep 93* 64-73
FALCON switch-based research project showing how ATM can be applied to customer premises networks. *Le Boudec, Jean-Yves*, + , *COM-M Feb 93* 50-56
high-speed ATM switching (special issue). *COM-M Feb 93* 26, 28-48, 50-56, 58-65
IT2000 project, Singapore's national information technology effort towards creating an intelligent island. *Motiwalla, Juzar*, + , *COM-M Oct 93* 28-34
models, architectures, and traffic performance of input queuing, shared queuing, and output queuing ATM switches. *Pattavina, Achille*, *COM-M Feb 93* 38-48
photonic ATM switch based on vertical-to-surface-transmission electrophotonic devices. *Nishio, Makoto*, + , *COM-M Apr 93* 62-68
virtual-path-based ATM transport network architecture supporting multimedia leased-line services. *Aoyama, Tomonori*, + , *COM-M Apr 93* 30-39
wavelength-, time-, code-, and space-division approaches to photonic fast packet switching. *Jajszczyk, Andrzej*, + , *COM-M Feb 93* 58-65
ATM; **cf.** Asynchronous transfer mode
Audio coding
algorithms and standards for wideband speech and audio coding. *Noll, Peter*, *COM-M Nov 93* 34-44
Availability
emerging customer-oriented definitions of switched service availability and reliability. *Glossbrenner, Kenneth C.*, *COM-M Jun 93* 28-32

Awards
1991 IEEE Communications Society Donald W. McLellan Meritorious Service Award givento Celia L. Desmond. *COM-M Jan 93* 8
1992 IEEE Koji Kobayashi Computers and Communications Award given to Vinton G. Cerf and Robert E. Kahn. *COM-M Feb 93* 12
1993 IEEE Alexander Graham Bell Medal given to Donald C. Cox. *COM-M Jun 93* 8
IEEE Communications Society members elected IEEE Fellows. *COM-M Apr 93* 22-24
US National Medal of Technology given to Amos E. Joel, Jr.. *COM-M Dec 93* 14

B

BCH coding
tutorial on defining, designing, and evaluating digital communication systems. *Sklar, Bernard, COM-M Nov 93* 92-101
Bibliographies
comparison of broadcast-and-select and wavelength-routing lightwave network architectures for LANs, MANs, and WANs. *Ramaswami, Rajiv, COM-M Feb 93* 78-88
signal processing techniques for reducing effects of transmission impairments in digital fiber optic systems. *Winters, Jack H., + , COM-M Jun 93* 68-76
Biomedical communication
advantages of ISDN as infrastructure for telemedicine applications. *Akselsen, Sigmund, + , COM-M Jan 93* 46-51
Block coding; cf. BCH coding
Book reviews; cf. *Specific topic*
Broadband communication; cf. Asynchronous transfer mode; Cable TV; Integrated services digital networks; Optical fiber commuhication
Broadcast channels
comparison of broadcast-and-select and wavelength-routing lightwave network architectures for LANs, MANs, and WANs. *Ramaswami, Rajiv, COM-M Feb 93* 78-88
Buffered communication
comparison of crossbar, sorter-based, unbuffered deflection-routed, and buffered Benes networks for ATM switching systems. *Zegura, Ellen Witte, COM-M Feb 93* 28-37†
models, architectures, and traffic performance of input queuing, shared queuing, and output queuing ATM switches. *Pattavina, Achille, COM-M Feb 93* 38-48
Buildings; cf. Intelligent systems
Business; cf. Communication industry
Business communication
evolution of customer premises equipment and its role in deployment of intelligent network capabilities. *Burson, Audrey F., + , COM-M Jan 93* 15-19
Business communication; cf. Local area networks
Business economics; cf. Communication system economics

C

Cables; cf. Optical fiber cable installation; Twisted-pair cables
Cable TV
Cox Cable Communications' president on cable industry in postdivestiture environment. *Robbins, James O., COM-M Dec 93* 44-46
CAD (computer-aided design); cf. Design automation
CCITT
algorithms and standards for wideband speech and audio coding. *Noll, Peter, COM-M Nov 93* 34-44
ATM virtual path connection and virtual channel connection performance, fault, and traffic management functions developed by CCITT. *Farkouh, Stephen C., COM-M May 93* 82-86
book review; JPEG—Still Image Data Compression Standard (Pennebaker, W. B., and Mitchell, J. L.; 1993). *Feig, Ephraim, COM-M Dec 93* 10-11
congestion control functions for SS7 signaling networks described in various CCITT recommendations. *Manfield, David R., + , COM-M Jun 93* 50-57
description of CCITT and other intelligent network frameworks. *Garrahan, James J., + , COM-M Mar 93* 30-36
emerging customer-oriented definitions of switched service availability and reliability. *Glossbrenner, Kenneth C., COM-M Jun 93* 28-32
impact of CCITT G.826 performance recommendation on digital systems. *Shafi, Mansoor, + , COM-M Sep 93* 56-62
internetworking of B-ISDN with MAN, LAN, ISDN, and frame relay networks. *Sutherland, Scott L., + , COM-M Aug 93* 60-63
standardizing speech-coding technology for network applications. *Dimolitsas, Spiros, COM-M Nov 93* 26-33
Cellular land mobile radio; cf. Land mobile radio cellular systems
China
advances in coding and compression technology for telecommunication systems in China. *Zhong, Yi X., COM-M Jul 93* 70-72
architecture and characteristics of HJD-04 and DS-30 medium-sized digital telephone switching systems developed in China. *Chen, Junliang, + , COM-M Jul 93* 56-60
China's concept and hierarchy for telecommunications standards. *Qian, ZongJue, COM-M Jul 93* 24-28
computer-aided planning tool for local telephone networks developed in China. *Liang, Xiong Jian, COM-M Jul 93* 34-37
effects of economic reform on telecommunications growth in China. *Chen, Yunqian, COM-M Jul 93* 20-22
overview of fundamental and developmental public switched network planning in China. *Wan, Siding, COM-M Jul 93* 18-19
overview of optical device research in China. *Zhou, Bingkun, COM-M Jul 93* 62-65
present status and outlook of line transmission systems in China. *Qiu, Shouhuang, COM-M Jul 93* 46-47
public switched network development and control in China. *Hao, Weimin, COM-M Jul 93* 52-55
R&D activities on digital radio, satellite communication, and mobile radio systems in China. *Bao, Yan, + , COM-M Jul 93* 42-45
satellite and terrestrial microwave communications deployment in public switched telephone network. *Liu, Shen, COM-M Jul 93* 38-40
status of R&D on optical fiber communications systems in China. *Ye, Peida, + , COM-M Jul 93* 48-50
telecommunication services on public switched telephone and packet data networks in China. *She, Qijiong, + , COM-M Jul 93* 30-33
telecommunications in China (special issue). *COM-M Jul 93* 14, 16, 18-22, 24-28, 30-40, 42-50, 52-60, 62-72
VLSI technology and ASIC development in China for telecommunications. *Feng, Chongxi, + , COM-M Jul 93* 66-69
Circuit reliability; cf. Communication system reliability
Circuit switching (communication systems); cf. Communication switching
Code-division switching
wavelength-, time-, code-, and space-division approaches to photonic fast packet switching. *Jajszczyk, Andrzej, + , COM-M Feb 93* 58-65
Coding/decoding; cf. Cryptography; Modulation coding; Source coding
Collaborative work; cf. Multimedia systems
Communication equipment
VLSI technology and ASIC development in China for telecommunications. *Feng, Chongxi, + , COM-M Jul 93* 66-69
Communication industry
ADC Kentrox's president on effects of divestiture on his company. *Porter, William B., COM-M Dec 93* 52-56
aspects of copyright law relating to telephone companies and their emerging interactive multimedia systems. *Bernstein, Robert J., COM-M Dec 93* 60-62
AT&T's chairman on effects of divestiture on telecommunications industry. *Allen, Robert E., COM-M Dec 93* 18-19
Bellcore's president on strategic technology for next ten years and beyond. *Heilmeier, George H., COM-M Dec 93* 30-34
BellSouth's chairman on chasm between competition and regulation since divestiture. *Clendenin, John L., COM-M Dec 93* 27-29
British Telecom's chairman on effects of divestiture and competition on global telecommunications industry. *Vallance, Iain, COM-M Dec 93* 20-23
Cellular Telecommunications Industry Association's expanding role in postdivestiture wireless communications marketplace. *Wheeler, Thomas E., COM-M Dec 93* 63-64
changing rules in information services market after divestiture. *Wiley, Richard E., + , COM-M Dec 93* 57-59
Cox Cable Communications' president on cable industry in postdivestiture environment. *Robbins, James O., COM-M Dec 93* 44-46
divestiture: ten years later (special issue). *COM-M Dec 93* 17-62
effects of economic reform on telecommunications growth in China. *Chen, Yunqian, COM-M Jul 93* 20-22
European perspective on telecommunication systems evolution. *Mossotto, Cesare, COM-M Aug 93* 52-58
InterDigital Communications Corporation's president on evolution of wireless communications since divestiture. *Erdman, William W., COM-M Dec 93* 48-51
NYNEX Corporation's chairman on status of telecommunications industry ten years after diversture. *Ferguson, William C., COM-M Dec 93* 40-42
Pacific Telesis Group's chairman on how role of regulators must change to meet changing industry needs. *Ginn, Sam, COM-M Dec 93* 36-39
United States Telephone Association's former president on maintaining fair competition in telecommunications industry. *Sodolski, John. COM-M Dec 93* 65-67
US West's chairman on reinventing telephone industry after divestiture. *McCormick, Richard, COM-M Dec 93* 24-26
Communication protocols; cf. Protocols, access; Protocols, transport
Communication switching
architecture and characteristics of HJD-04 and DS-30 medium-sized digital telephone switching systems developed in China. *Chen, Junliang, + , COM-M Jul 93* 56-60
architecture and implementation of SYNET flexible synchronous network based on SDH. *Allmis, Susanna, COM-M Sep 93* 52-55
changing role of switching in the telecommunications network (special issue). *COM-M Jan 93* 12-13, 15-24, 26-32, 34-36
comparison of broadcast-and-select and wavelength-routing lightwave network architectures for LANs, MANs, and WANs. *Ramaswami, Rajiv, COM-M Feb 93* 78-88
congestion control functions for SS7 signaling networks described in various CCITT recommendations. *Manfield, David R., + , COM-M Jun 93* 50-57
emerging customer-oriented definitions of switched service availability and reliability. *Glossbrenner, Kenneth C., COM-M Jun 93* 28-32
evolution of customer premises equipment and its role in deployment of intelligent network capabilities. *Burson, Audrey F., + , COM-M Jan 93* 15-19
evolving role of telecommunications switching for applications in personal and multimedia communications and information access systems. *Personick, Stewart D., COM-M Jan 93* 20-24
framework for measuring outages in circuit-switched telecommunications networks. *Daneshmand, Mahmoud, + , COM-M Jun 93* 34-38
internetworked PBX-computer systems for intelligent building applications. *Ishibashi, Mamoru, + , COM-M Oct 93* 50-51
measuring and analyzing reliability of local exchange carrier telephone networks and switching. *Fagerstrom, Richard, + , COM-M Jun 93* 44-48
past, present, and future of telecommunications switching systems. *Bennett, Ronnie Lee, + , COM-M Mar 93* 24-28
public switched network development and control in China. *Hao, Weimin, COM-M Jul 93* 52-55
selected papers from 14th (1992) International Switching Symposium (special section). *COM-M Apr 93* 26, 28, 30-52, 54-60, 62-68, 70-82, 84-88
switching system requirements for future broadband networks. *Aoki, Toshiharu, COM-M Jun 93* 34-38
technology's role in switching systems evolution. *Ebert, Irving, + , COM-M Jan 93* 26-32

Communication switching; cf. Asynchronous transfer mode; Code-division switching; Land mobile radio cellular systems; Packet switching; Space-division switching
Communication system control; cf. Communication system operations and management
Communication system economics
cost comparison of ATM-based passive optical network configurations in context of fiber-in-the-loop. *Verbiest, Willem,* + , *COM-M Jun 93* 60-66
cost structure of personal communication services; public policy implications. *Reed, David P., COM-M Apr 93* 102-108
tariff structures and levels for basic telephone services in Central Europe. *Jajszczyk, Andrzej,* + , *COM-M Oct 93* 68-73
Communication system economics; cf. Communication industry; Communication system planning
Communication system interfaces
Consumer Electronic Bus (CEBus) architecture for managing communication between home automation modules. *Douligeris, Christos, COM-M Oct 93* 52-61
evolution of customer premises equipment and its role in deployment of intelligent network capabilities. *Burson, Audrey F.,* + , *COM-M Jan 93* 15-19
framework for specifiying goal-oriented network management systems. *Bean, Angelo,* + , *COM-M May 93* 30-36
fundamentals and applications of speech recognition. *Roe, David B.,* + , *COM-M Nov 93* 54-62
implementing OSI-based interfaces for network management. *Serre, Jean-Marc,* + , *COM-M May 93* 76-81
issues in FDDI standardization concerning low-cost fiber and twisted-pair media-dependent physical layers, SONET mapping, and FDDI follow-on LAN. *Jain, Raj, COM-M Sep 93* 98-105
object-oriented modeling of application and presentation layers of human–machine interfaces in management network architecture. *Marchisio, Lucia,* + , *COM-M May 93* 68-74
shared and interactive multiuser virtual space for remote business communication. *Kishimoto, Tomio,* + , *COM-M Oct 93* 36-38
speech synthesis from unrestricted text for telecommunications applications. *Levinson, Stephen E.,* + , *COM-M Nov 93* 46-53
telecommunications management network architecture and object-oriented network resource model for managing multivendor environments in SDH networks. *Kunieda, Toshinari,* + , *COM-M Nov 93* 84-90
Communication system interfaces; cf. Communication terminals
Communication system operations and management
application of telecommunication management network principles to intelligent network architectures. *Pontailler, Catherine, COM-M Apr 93* 84-88
architecture and implementation of SYNET flexible synchronous network based on SDH. *Allmis, Susanna, COM-M Sep 93* 52-55
ATM virtual path connection and virtual channel connection performance, fault, and traffic management functions developed by CCITT. *Farkouh, Stephen C., COM-M May 93* 82-86
congestion control functions for SS7 signaling networks described in various CCITT recommendations. *Manfield, David R.,* + , *COM-M Jun 93* 50-57
detecting and resolving intelligent network service interactions at the specification level. *Kuisch, Eric,* + , *COM-M Aug 93* 24-31
emerging customer-oriented definitions of switched service availability and reliability. *Glossbrenner, Kenneth C., COM-M Jun 93* 28-32
identifying and managing adverse feature interactions in telecommunications systems. *Cameron, E. Jane,* + , *COM-M Aug 93* 18-23
managing feature interactions in telecommunications (special issue). *COM-M Aug 93* 16-58, 60-66
method for detecting interactions among services and service features. *Wakahara, Yasushi,* + , *COM-M Aug 93* 32-37
modeling and analyzing service interactions in object-oriented environment. *Mierop, John,* + , *COM-M Aug 93* 46-51
public switched network development and control in China. *Hao, Weimin, COM-M Jul 93* 52-55
specifying telephone systems software in LOTOS language to avoid feature interactions. *Boumezbeur, Rezki,* + , *COM-M Aug 93* 38-45
telecommunication services on public switched telephone and packet data networks in China. *She, Qiliang,* + , *COM-M Jul 93* 30-33
telecommunications management network architecture and object-oriented network resource model for managing multivendor environments in SDH networks. *Kunieda, Toshinari,* + , *COM-M Nov 93* 84-90
TINA framework for integration of intelligent network and telecommunication management network architectures. *Appeldorn, Menso,* + , *COM-M Mar 93* 78-85
Communication system operations and management; cf. Communication system interfaces; Computer network management
Communication system performance
emerging customer-oriented definitions of switched service availability and reliability. *Glossbrenner, Kenneth C., COM-M Jun 93* 28-32
impact of CCITT G.826 performance recommendation on digital systems. *Shafi, Mansoor,* + , *COM-M Sep 93* 56-62
Communication system performance; cf. Information rates; Queuing analysis
Communication system planning
China's concept and hierarchy for telecommunications standards. *Qian, ZongJue, COM-M Jul 93* 24-28
computer-aided planning tool for local telephone networks developed in China. *Liang, Xiong-Jian, COM-M Jul 93* 34-37
cost-effective evolution from SONET synchronous transfer mode network to SONET/ATM network. *Wu, Tsong-Ho, COM-M Sep 93* 64-73
overview of fundamental and developmental public switched network planning in China. *Wan, Siding, COM-M Jul 93* 18-19
Communication system reliability
dependability of network sevices (special issue). *COM-M Jun 93* 27-32, 34-38, 40-48, 50-57
framework for measuring outages in circuit-switched telecommunications networks. *Daneshmand, Mahmoud,* + , *COM-M Jun 93* 34-38†
incorporating reliability specifications in design of telecommunication networks. *Nojo, Satoshi,* + , *COM-M Jun 93* 40-43
measuring and analyzing reliability of local exchange carrier telephone networks and switching. *Fagerstrom, Richard,* + , *COM-M Jun 93* 44-48
Communication system reliability; cf. Communication system operations and management
Communication systems
book review; Simulation of Communication Systems (Jeruchim, M. C., et al.; 1992). *Tranter, William H., COM-M Apr 93* 18, 20-21
telecommunications in China (special issue). *COM-M Jul 93* 14, 16, 18-22, 24-28, 30-40, 42-50, 52-60, 62-72
war damage to the telecommunications infrastructure in Croatia. *Zovko-Cihlar, Branka, COM-M Oct 93* 62-66
Communication systems; cf. Biomedical communication; Broadcast channels; Business communication; CCITT; Data communication; Digital communication; Intelligent systems; Multiaccess communication; Multimedia systems; Optical fiber communication; Wire communication
Communication system signaling; cf. Communication system operations and management
Communication system software
architecture and characteristics of HJD-04 and DS-30 medium-sized digital telephone switching systems developed in China. *Chen, Junliang,* + , *COM-M Jul 93* 56-60
modeling and analyzing service interactions in object-oriented environment. *Mierop, John,* + , *COM-M Aug 93* 46-51
object-oriented design of ISDN call-processing software. *Guenther, Wolfgang,* + , *COM-M Apr 93* 40-45
Communication system software; cf. Communication switching
Communication terminals
services and technology analog display services interface. *Schwartz, Barry K., COM-M Apr 93* 70-75
Computer-aided design; cf. Design automation
Computer communication; cf. Computer networks; Data communication
Computer documentation; cf. Documentation
Computer graphics
shared and interactive multiuser virtual space for remote business communication. *Kishimoto, Tomio,* + , *COM-M Oct 93* 36-38
Computer interfaces; cf. Communication system interfaces; Natural language systems
Computer languages
book review; An OPS5 Primer: Introduction to Rule-Based Expert Systems (Sherman, P. D., and Martin, J. C.; 1990). *Perlin, Mark, COM-M Jan 93* 70
book review; C++ Programming Style (Cargill, T.; 1992). *Chen, Jeng-Chun J., COM-M Aug 93* 12
book review; Using C with Curses, Lex, and Yacc (Schreiner, A. T.; 1990). *Palmer, Charles C., COM-M Feb 93* 22
Computer network management
common management information service element for monitoring and controlling OSI communications entities. *Raman, Lakshmi, COM-M May 93* 46-51
framework for specifiying goal-oriented network management systems. *Bean, Angelo,* + , *COM-M May 93* 30-36
implementing OSI-based interfaces for network management. *Serre, Jean-Marc,* + , *COM-M May 93* 76-81
object-oriented model for analyzing OSI network performance management. *Hayes, Stephen, COM-M May 93* 52-58
object-oriented modeling of application and presentation layers of human–machine interfaces in management network architecture. *Marchisio, Lucia,* + , *COM-M May 93* 68-74
OSI network management model. *Yemini, Yechiam, COM-M May 93* 20-29
OSI network management systems (special issue). *COM-M May 93* 18-36, 38-44, 46-58, 60-74, 76-81
OSI systems management information model based on object-oriented principles. *Klerer, S. Mark, COM-M May 93* 38-44
using OSI's management information structure to model SNA networks. *Fernandez, Joseph,* + , *COM-M May 93* 60-67
Computer networks
book review; Fundamentals of Optical SNA: Architecture, Protocols, and Implementation (Kapoor, A.; 1992). *Cain, Robert S., COM-M Jan 93* 70
comparison of broadcast-and-select and wavelength-routing lightwave network architectures for LANs, MANs, and WANs. *Ramaswami, Rajiv, COM-M Feb 93* 78-88
Computer networks; cf. Data communication; Distributed computing; Local area networks; Metropolitan area networks; Open Systems Interconnection
Computer programming; cf. Computer languages
Computers; cf. Distributed computing
Control systems; cf. Discrete-event systems
Copyright protection
aspects of copyright law relating to telephone companies and their emerging interactive multimedia systems. *Bernstein, Robert J., COM-M Dec 93* 60-62
Copyright protection; cf. Software protection
Croatia
war damage to the telecommunications infrastructure in Croatia. *Zovko-Cihlar, Branka, COM-M Oct 93* 62-66
Cryptography
advances in coding and compression technology for telecommunication systems in China. *Zhong, Yi X., COM-M Jul 93* 70-72

D

Database management systems
book review; Understanding Database Management Systems—An Insider's Guide to Architectures, Products, and Design (Mattison, R. M.; 1993). *Yau, Kitty H., COM-M Dec 93* 10
Database systems; cf. Database management systems; Distributed database systems; Information systems
Data communication
book review; Data Communications Principles (Gitlin, R. D., et al.; 1992). *Kurzweil, Jack, COM-M Aug 93* 12-13

comments on 'The latency/bandwidth tradeoff in gigabit networks' by L. Kleinrock. *Touch, Joseph D., + , COM-M Feb 93* 8-9 (Original paper, Apr 92 36-40)
principles of intelligent information networking architecture developed by TINA Consortium. *Barr, William J., + , COM-M Mar 93* 70-76
use of optical sensors embedded in reinforced concrete for intelligent building information networks. *Huston, Dryver R., + , COM-M Oct 93* 40-45
Data communication; cf. Broadcast channels; Computer networks; Distributed computing; Integrated services digital networks; Integrated voice/data communication; Land mobile radio data communication; Local area networks; Multiaccess communication; Office automation; Packet switching
Data compression; cf. Source coding
Data management; cf. Database management systems
Data processing; cf. Office automation
Data security; cf. Cryptography
Data transmission; cf. Data communication
Delay effects
comments on 'The latency/bandwidth tradeoff in gigabit networks' by L. Kleinrock. *Touch, Joseph D., + , COM-M Feb 93* 8-9 (Original paper, Apr 92 36-40)
Delay systems; cf. Queuing analysis
Demultiplexing; cf. Multiplexing
Design automation
computer-aided planning tool for local telephone networks developed in China. *Liang, Xiong-Jian, COM-M Jul 93* 34-37
Digital communication
present status and outlook of line transmission systems in China. *Qiu, Shouhuang, COM-M Jul 93* 46-47
tutorial on defining, designing, and evaluating digital communication systems. *Sklar, Bernard, COM-M Nov 93* 92-101
Digital communication; cf. Digital radio; Integrated services digital networks; Integrated voice/data communication; Multiplexing; Pseudonoise-coded communication; Source coding
Digital image processing; cf. Image processing
Digital modulation/demodulation; cf. Frequency-shift keying; Minimum-shift keying; Phase-shift keying
Digital radio
book review; Mobile Radio Communications (Steele, R., 1992). *Ahmadi, Hamid, + , COM-M Nov 93* 10, 13, 16
GSM (global system for mobile telecommunications) structure and protocol architecture. *Rahnema, Moe, COM-M Apr 93* 92-100
limitations of data transmission over analog cellular networks; standardization of data services for TDMA digital cellular networks. *Weissman, David, + , COM-M Feb 93* 68-77
R&D activities on digital radio, satellite communication, and mobile radio systems in China. *Yao, Yan, + , COM-M Jul 93* 42-45
Digital signal processors; cf. Microprocessors
Digital transmission; cf. Digital communication
Discrete-event systems
framework for specifiying goal-oriented network management systems. *Bean, Angelo, + , COM-M May 93* 30-36
Displays
services and technology analog display services interface. *Schwartz, Barry K., COM-M Apr 93* 70-75
Displays; cf. Computer graphics; Workstations
Distributed computing
book review; Client/Server Architecture (Berson, A.; 1992). *Chen, Ming-Syan, COM-M Jul 93* 10
book review; Distributed Computing: A Practical Synthesis (Umar, A.; 1993). *Thomasian, Alexander, COM-M Jun 93* 20
Distributed database systems
IT2000 project, Singapore's national information technology effort towards creating an intelligent island. *Motiwalla, Juzar, + , COM-M Oct 93* 28-34
Documentation
book review; Developing Effective User Documentation; A Human Factors Approach (Simpson, H. and Casey, S. M.). *Selker, Ted, COM-M Feb 93* 23
Document handling
customer requirements and telephone company capabilities for document image processing on networks. *Heatwole, Earnest, COM-M Jan 93* 40-44

E

Economics; cf. Communication system economics
Electronic mail
book review; The Internet Message: Closing the Book with Electronic Mail (Rose, M. T.; 1992). *Dawkins, Spencer, COM-M Oct 93* 13
Error-control coding; cf. Modulation coding
Europe
European perspective on telecommunication systems evolution. *Mossotto, Cesare, COM-M Aug 93* 52-58
intelligent networks developed by European telecommunications operators and by Eurescom group. *Cañcer, Emilio, + , COM-M Mar 93* 38-47
status and technology of mobile telephone and data networks in Europe. *Arnbak, Jens C., COM-M Sep 93* 74-82
tariff structures and levels for basic telephone services in Central Europe. *Jajszczyk, Andrzej, + , COM-M Oct 93* 68-73
Expert systems
book review; An OPS5 Primer: Introduction to Rule-Based Expert Systems (Sherman, P. D., and Martin, J. C.; 1990). *Perlin, Mark, COM-M Jan 93* 70

F

Feature extraction; cf. Speech recognition
Flow control; cf. Communication switching
Frame synchronization
evaluation of pointer processor designs improving timing transparency between SDH/SONET and plesiochronous digital hierarchy networks. *Klein, Michael J., + , COM-M Sep 93* 42-50
Frequency-division multiplexing; cf. Wavelength-division multiplexing
Frequency-shift keying
tutorial on defining, designing, and evaluating digital communication systems. *Sklar, Bernard, COM-M Nov 93* 92-101
Frequency-shift keying; cf. Minimum-shift keying

G

Gallium FETs; cf. MESFET integrated circuits
Governmental activities/factors
BellSouth's chairman on chasm between competition and regulation since divestiture. *Clendenin, John L., COM-M Dec 93* 27-29
cost structure of personal communication services; public policy implications. *Reed, David P., COM-M Apr 93* 102-108
Pacific Telesis Group's chairman on how role of regulators must change to meet changing industry needs. *Ginn, Sam, COM-M Dec 93* 36-39
Graphics; cf. Computer graphics

H

Home automation
Consumer Electronic Bus (CEBus) architecture for managing communication between home automation modules. *Doulgeris, Christos, COM-M Oct 93* 52-61
Human factors
book review; Developing Effective User Documentation; A Human Factors Approach (Simpson, H. and Casey, S. M.). *Selker, Ted, COM-M Feb 93* 23

I

IEEE Communications Society; cf. Awards
Image coding
advances in coding and compression technology for telecommunication systems in China. *Zhong, YiX., COM-M Jul 93* 70-72
book review; JPEG—Still Image Data Compression Standard (Pennebaker, W. B., and Mitchell, J. L.; 1993). *Feig, Ephraim, COM-M Dec 93* 10-11
Image communication; cf. Cable TV; Image coding
Image processing
book review; Image Processing (Pearson, D., *Ed.*; 1992). *Haskell, Paul, COM-M Mar 93* 14, 16, 18
customer requirements and telephone company capabilities for document image processing on networks. *Heatwole, Earnest, COM-M Jan 93* 40-44
Information rates
comments on 'The latency/bandwidth tradeoff in gigabit networks' by L. Kleinrock. *Touch, Joseph D., + , COM-M Feb 93* 8-9 (Original paper, Apr 92 36-40)
models, architectures, and traffic performance of input queuing, shared queuing, and output queuing ATM switches. *Pattavina, Achille, COM-M Feb 93* 38-48
Information systems
internetworked PBX-computer systems for intelligent building applications. *Ishibashi, Mamoru, + , COM-M Oct 93* 50-51
Information systems; cf. Multimedia systems; Office automation
Infrared lasers; cf. Optical fiber transmitters, lasers
Innovation; cf. Technological innovation
Integrated circuits; cf. Application-specific integrated circuits; Microprocessors
Integrated services digital networks
advantages of ISDN as infrastructure for telemedicine applications. *Akselsen, Sigmund, + , COM-M Jan 93* 46-51
B-ISDN multimedia workstation architecture supporting groupware applications. *Sakata, Shiro, COM-M Aug 93* 64-67
book review; ISDN and Broadband ISDN, 2nd edn. (Stallings, W.; 1992). *Li, Chung-Sheng, COM-M Jun 93* 14, 16
coding and networking techniques for high-quality networking of audio-visual information. *Jayant, Nikil, COM-M Sep 93* 84-95
evolving role of telecommunications switching for applications in personal and multimedia communications and information access systems. *Personick, Stewart D., COM-M Jan 93* 20-24
impact of CCITT G.826 performance recommendation on digital systems. *Shafi, Mansoor, + , COM-M Sep 93* 56-62
intelligent network services provided by Nippon Telephone and Telegraph. *Suzuki, Shigenko, COM-M Mar 93* 48-55
internetworking of B-ISDN with MAN, LAN, ISDN, and frame relay networks. *Sutherland, Scott L., + , COM-M Aug 93* 60-63
North American ISDN users' forum for expediting development of national ISDN. *Stokesberry, Dan, + , COM-M May 93* 88-94
object-oriented design of ISDN call-processing software. *Guenther, Wolfgang, + , COM-M Apr 93* 40-45
regulatory and service driver prerequisites for local optical access to broadband ISDN. *Clarke, Donald E., A., + , COM-M Mar 93* 94-100
switching system requirements for future broadband networks. *Aoki, Toshiharu, COM-M Jan 93* 34-38
video services over asymmetric digital subscriber lines transmitting at 1.544 Mb/s and beyond over copper loop. *Hsing, T. Russell, + , COM-M Jan 93* 62-68
Integrated services digital networks; cf. Asynchronous transfer mode
Integrated voice/data communication
customer requirements and telephone company capabilities for document image processing on networks. *Heatwole, Earnest, COM-M Jan 93* 40-44
Integrated voice/data communication; cf. Integrated services digital networks; Packet switching
Intelligent systems
advanced intelligent networks implemented by US regional telephone companies. *Russo, Peter A., + , COM-M Mar 93* 56-63
application of telecommunicatioh management network principles to intelligent network architectures. *Pontailler, Catherine, COM-M Apr 93* 84-88
architecture and service requirements for globalization of intelligent networks. *Fujioka, Masanobu, + , COM-M Apr 93* 54-60
causes of feature interactions in intelligent networks and methods for managing them. *Cameron, E. Jane, + , COM-M Mar 93* 64-69

Consumer Electronic Bus (CEBus) architecture for managing communication between home automation modules. *Douligeris, Christos, COM-M Oct 93* 52-61
current trends in intelligent buildings (special issue). *COM-M Oct 93* 18, 21-26, 28-34, 36-38, 40-48, 50-61
evolution of CCITT and other intelligent network frameworks. *Garrahan, James A., + , COM-M Mar 93* 30-36
detecting and resolving intelligent network service interactions at the specification level. *Kuisch, Eric, + , COM-M Aug 93* 24-31
FINEBIL concept for intelligent building design. *Azegami, Moriaki, + , COM-M Oct 93* 46-48
global intelligent networking issues at the physical, transport, routing, and service levels. *Chen, Stephen, + , COM-M Mar 93* 86-92
intelligent networks developed by European telecommunications operators and by Eurescom group. *Cancer, Emilio, + , COM-M Mar 93* 38-47
intelligent network services provided by Nippon Telephone and Telegraph. *Suzuki, Shigehiko, COM-M Mar 93* 48-55
internetworked PBX–computer systems for intelligent building applications. *Ishibashi, Mamoru, + , COM-M Oct 93* 50-51
IT2000 project, Singapore's national information technology effort towards creating an intelligent island. *Motiwalla, Juzar, + , COM-M Oct 93* 28-34
marching toward the global intelligent network (special issue). *COM-M Mar 93* 22-28, 30-36, 38-76, 78-92
principles of intelligent information networking architecture developed by TINA Consortium. *Barr, William J., + , COM-M Mar 93* 70-76
systems evolution in intelligent buildings. *Kujuro, Akihiko, + , COM-M Oct 93* 22-26
TINA framework for integration of intelligent network and telecommunication management network architectures. *Appeldorn, Menzo, + , COM-M Mar 93* 78-85
use of optical sensors embedded in reinforced concrete for intelligent building information networks. *Huston, Dryver R., + , COM-M Oct 93* 40-45

Interactive systems
aspects of copyright law relating to telephone companies and their emerging interactive multimedia systems. *Bernstein, Robert J., COM-M Dec 93* 60-62
shared and interactive multiuser virtual space for remote business communication. *Kishimoto, Tomio, + , COM-M Oct 93* 36-38

Interference; cf. Intersymbol interference; Noise

Internat. Consultative Cite. for Telephone & Telegraph; cf. CCITT

International Organization for Standardization; cf. ISO

Internetworking
internetworked PBX–computer systems for intelligent building applications. *Ishibashi, Mamoru, + , COM-M Oct 93* 50-51
internetworking of B-ISDN with MAN, LAN, ISDN, and frame relay networks. *Sutherland, Scott L., + , COM-M Aug 93* 60-63

Intersymbol interference
signal processing techniques for reducing effects of transmission impairments in digital fiber optic systems. *Winters, Jack H., + , COM-M Jun 93* 68-76

Interviews
interview of Jack McDonald, past president of ComSoc, by past president Ray Pickholtz, on future of Society. *COM-M Sep 93* 12, 14

ISDN; cf. Integrated services digital networks

ISO
algorithms and standards for wideband speech and audio coding. *Noll, Peter, COM-M Nov 93* 34-44
book review; JPEG—Still Image Data Compression Standard (Pennebaker, W. B., and Mitchell, J. L.; 1993). *Feig, Ephraim, COM-M Dec 93* 10-11

ISO; cf. Open Systems Interconnection

J

Japan
intelligent network services provided by Nippon Telephone and Telegraph. *Suzuki, Shigehiko, COM-M Mar 93* 48-55

L

LAN; cf. Local area networks

Land mobile radio
R&D activities on digital radio, satellite communication, and mobile radio systems in China. *Yao, Yan, + , COM-M Jul 93* 42-45

Land mobile radio cellular systems
book review; Mobile Radio Communications (Steele, R.; 1992). *Ahmadi, Hamid, + , COM-M Nov 93* 10, 13, 16
Cellular Telecommunications Industry Association's expanding role in postdivestiture wireless communications marketplace. *Wheeler, Thomas E., COM-M Dec 93* 63-64
cost structure of personal communication services; public policy implications. *Reed, David P., COM-M Apr 93* 102-108
effects of PCS design factors on speech codecs. *Steele, Raymond, COM-M Nov 93* 76-83
GSM (global system for mobile telecommunications) structure and protocol architecture. *Rahnema, Moe, COM-M Apr 93* 92-100
implementation of microcell design principles in conventional cellular systems. *Sarnecki, Joseph, + , COM-M Apr 93* 76-82
InterDigital Communications Corporation's president on evolution of wireless communications since divestiture. *Erdman, William W., COM-M Dec 93* 48-51
limitations of data transmission over analog cellular networks; standardization of data services for TDMA digital cellular networks. *Weissman, David, + , COM-M Feb 93* 68-77
status and technology of mobile telephone and data networks in Europe. *Arnbak, Jens C., COM-M Sep 93* 74-82
topics in PCS (special section). *COM-M Apr 93* 90, 92-100, 102-108

Land mobile radio data communication
limitations of data transmission over analog cellular networks; standardization of data services for TDMA digital cellular networks. *Weissman, David, + , COM-M Feb 93* 68-77
status and technology of mobile telephone and data networks in Europe. *Arnbak, Jens C., COM-M Sep 93* 74-82

Land mobile radio propagation factors; cf. Land mobile radio cellular systems

Languages; cf. Computer languages; Natural language systems

Laser applications; cf. Optical fiber transmitters, lasers

Laser diodes; cf. Optical fiber transmitters, lasers

Legal factors; cf. Copyright protection

Linear systems
book review; Linear Systems and Signals (Lathi, B. P.; 1992). *Li, Chung-Sheng, COM-M May 93* 5

Local area networks
comparison of broadcast-and-select and wavelength-routing lightwave network architectures for LANs, MANs, and WANs. *Ramaswami, Rajiv, COM-M Feb 93* 78-88
FALCON switch-based research project showing how ATM can be applied to customer premises networks. *Le Boudec, Jean-Yves, + , COM-M Feb 93* 50-56
issues in FDDI standardization concerning low-cost fiber and twisted-pair media-dependent physical layers, SONET mapping, and FDDI follow-on LAN. *Jain, Raj, COM-M Sep 93* 98-105
systems evolution in intelligent buildings. *Kujuro, Akihiko, + , COM-M Oct 93* 22-26

Local area networks; cf. Internetworking; Open Systems Interconnection

Logic programming
framework for specifiying goal-oriented network management systems. *Bean, Angelo, + , COM-M May 93* 30-36

M

Mail; cf. Electronic mail

Maintenance; cf. Availability

Management; cf. Communication system operations and management

Man–machine systems; cf. Human factors

Medical communication; cf. Biomedical communication

MESFET integrated circuits
book review; Gallium Arsenide Digital Circuits (Wing, O.; 1990). *Larsen, Thor A., COM-M Mar 93* 14

Message systems; cf. Electronic mail

Metropolitan area networks
comparison of broadcast-and-select and wavelength-routing lightwave network architectures for LANs, MANs, and WANs. *Ramaswami, Rajiv, COM-M Feb 93* 78-88

Metropolitan area networks; cf. Internetworking

Microprocessors
DSP-based hardware and software tools for real-time speech-processing research. *Snyder, J. H., + , COM-M Nov 93* 64-74

Microwave radio communication; cf. Satellite communication

Minimum-shift keying
error-control properties of MSK coded-modulation schemes. *Leib, Harry, + , COM-M Jan 93* 52-61

Modeling
object-oriented model for analyzing OSI network performance management. *Hayes, Stephen, COM-M May 93* 52-58
object-oriented modeling of application and presentation layers of human–machine interfaces in management network architecture. *Marchisio, Lucia, + , COM-M May 93* 68-74
OSI systems management information model based on object-oriented principles. *Kherer, S. Mark, COM-M May 93* 38-44
using OSI's management information structure to model SNA networks. *Fernandez, Joseph, + , COM-M May 93* 60-67

Modeling; cf. Petri nets; Queuing analysis; Simulation

Modulation coding
error-control properties of MSK coded-modulation schemes. *Leib, Harry, + , COM-M Jan 93* 52-61

Modulation/demodulation; cf. Digital modulation/demodulation; Modulation coding

MSK; cf. Minimum-shift keying

Multiaccess communication
shared and interactive multiuser virtual space for remote business communication. *Kishimoto, Tomio, + , COM-M Oct 93* 36-38

Multiaccess communication; cf. Protocols, access; Time-division multiaccess

Multimedia systems
aspects of copyright law relating to telephone companies and their emerging interactive multimedia systems. *Bernstein, Robert J., COM-M Dec 93* 60-62
B-ISDN multimedia workstation architecture supporting groupware applications. *Sakata, Shiro, COM-M Aug 93* 64-67
evolving role of telecommunications switching for applications in personal and multimedia communications and information access systems. *Personick, Stewart D., COM-M Jan 93* 20-24
IT2000 project, Singapore's national information technology effort towards creating an intelligent island. *Motiwalla, Juzar, + , COM-M Oct 93* 28-34
virtual-path-based ATM transport network architecture supporting multimedia leased-line services. *Aoyama, Tomonori, + , COM-M Apr 93* 30-39

Multiplexing
evaluation of pointer processor designs improving timing transparency between SDH/SONET and plesiochronous digital hierarchy networks. *Klein, Michael J., + , COM-M Sep 93* 42-50
introduction to SDH/SONET (guest editors' overview and special issue intro.). *Omidyar, Cambyse Guy, Guest Ed., + , COM-M Sep 93* 30-33

Multiplexing; cf. Wavelength-division multiplexing

Multiprocessing; cf. Distributed computing

Multiuser channels; cf. Broadcast channels

N

Natural language systems
IT2000 project, Singapore's national information technology effort towards creating an intelligent island. *Motiwalla, Juzar, + , COM-M Oct 93* 28-34

Network reliability; cf. Communication system reliability
Networks; cf. Communication switching; Computer networks; Petri nets
Noise
signal processing techniques for reducing effects of transmission impairments in digital fiber optic systems. *Winters, Jack H.*, + , *COM-M Jun 93* 68-76

O

Obituaries
Edward C. Posner. *McEliece, Bob, COM-M Nov 93* 8-9
Eric Eden Sumner. *Andrews, Fred, COM-M Feb 93* 10
Eric Eden Sumner. *Green, Paul, COM-M Mar 93* 4
Object-oriented programming
modeling and analyzing service interactions in object-oriented environment. *Mierop, John*, + , *COM-M Aug 93* 46-51
object-oriented design of ISDN call-processing software. *Guenther, Wolfgang*, + , *COM-M Apr 93* 40-45
object-oriented model for analyzing OSI network performance management. *Hayes, Stephen, COM-M May 93* 52-58
object-oriented modeling of application and presentation layers of human–machine interfaces in management network architecture. *Marchisio, Lucia*, + , *COM-M May 93* 68-74
OSI systems management information model based on object-oriented principles. *Klerer, S. Mark, COM-M May 93* 38-44
Office automation
systems evolution in intelligent buildings. *Kujuro, Akihiko*, + , *COM-M Oct 93* 22-26
Office automation; cf. Document handling; Local area networks
Open Systems Interconnection
book review; OSI-Conformant Networks (Yakubaitis, E. A.; 1992). *Li, Chung-Sheng, COM-M May 93* 5-6
common management information service element for monitoring and controlling OSI communications entities. *Ramin, Lakshmi, COM-M May 93* 46-51
implementing OSI-based interfaces for network management. *Serre, Jean-Marc*, + , *COM-M May 93* 76-81
object-oriented model for analyzing OSI network performance management. *Hayes, Stephen, COM-M May 93* 52-58
OSI network management model. *Yemini, Yechiam, COM-M May 93* 20-29
OSI network management systems (special issue). *COM-M May 93* 18-36, 38-44, 46-58, 60-74, 76-81
OSI systems management information model based on object-oriented principles. *Klerer, S. Mark, COM-M May 93* 38-44
using OSI's management information structure to model SNA networks. *Fernandez, Joseph*, + , *COM-M May 93* 60-67
Optical amplifiers; cf. Optical fiber amplifiers
Optical communication; cf. Optical fiber communication
Optical crosstalk; cf. Optical fiber crosstalk
Optical fiber amplifiers
overview of optical device research in China. *Zhou, Bingkun, COM-M Jul 93* 62-65
Optical fiber cable installation
use of optical sensors embedded in reinforced concrete for intelligent building information networks. *Huston, Dryver R.*, + , *COM-M Oct 93* 40-45
Optical fiber communication
book review; Fiber-Optic Communication Systems (Agrawal, G. P.; 1992). *Li, Chung-Sheng, COM-M Apr 93* 17-18
book review; Fundamentals of Optical Fiber Communications (Van Etten, W. and Van Der Plants, J.; 1991). *Li, Chung-Sheng, COM-M Feb 93* 22
book review; Optical Fiber Communications, Principles and Practice, 2nd edn. (Senior, J. M.; 1992). *Bates, Richard J. S., COM-M Dec 93* 11
cost-effective evolution from SONET synchronous transfer mode network to SONET/ATM network. *Wu, Tsong-Ho, COM-M Sep 93* 64-73
evaluation of pointer processor designs improving timing transparency between SDH/SONET and plesiochronous digital hierarchy networks. *Klein, Michael J.*, + , *COM-M Sep 93* 42-50
introduction to SDH/SONET (guest editors' overview and special issue intro.). *Omidyar, Cambyse Guy, Guest Ed.*, + , COM-M Sep 93 30-33
issues in FDDI standardization concerning low-cost fiber and twisted-pair media-dependent physical layers, SONET mapping, and FDDI follow-on LAN. *Jain, Raj, COM-M Sep 93* 98-105
regulatory and service dnver prerequisites for local optical access to broadband ISDN. *Clarke, Donald E. A.*, + , *COM-M May 93* 94-100
SDH/SONET (special issue). *COM-M Sep 93* 30-40, 42-50, 52-62, 64-73
signal processing techniques for reducing effects of transmission impairments in digital fiber optic systems. *Winters, Jack H.*, + , *COM-M Jun 93* 68-76
status of R&D on optical fiber communications systems in China. *Ye, Peida*, + , *COM-M Jul 93* 48-50
status of SONET development and deployment. *Ching, Yau-Chau*, + , *COM-M Sep 93* 34-40
wavelength-, time-, code-, and space-division approaches to photonic fast packet switching. *Jajszczyk, Andrzej*, + , *COM-M Feb 93* 58-65
Optical fiber communication; cf. Computer networks; Optical fiber subscriber networks; Optical fiber telemetry; Wavelength-division multiplexing
Optical fiber crosstalk
signal processing techniques for reducing effects of transmission impairments in digital fiber optic systems. *Winters, Jack H.*, + , *COM-M Jun 93* 68-76
Optical fiber interference; cf. Optical fiber crosstalk
Optical fiber measurement applications; cf. Optical fiber telemetry
Optical fiber subscriber networks
cost comparison of ATM-based passive optical network configurations in context of fiber-in-the-loop. *Verbiest, Willem*, + , *COM-M Jun 93* 60-66
Optical fiber switches
overview of optical device research in China. *Zhou, Bingkun, COM-M Jul 93* 62-65
Optical fiber telemetry
use of optical sensors embedded in reinforced concrete for intelligent building information networks. *Huston, Dryver R.*, + , *COM-M Oct 93* 40-45
Optical fiber transmitters, lasers
overview of optical device research in China. *Zhou, Bingkun, COM-M Jul 93* 62-65
Optical signal processing
signal processing techniques for reducing effects of transmission impairments in digital fiber optic systems. *Winters, Jack H.*, + , *COM-M Jun 93* 68-76
Optical switches
photonic ATM switch based on vertical-to-surface-transmission electrophotonic devices. *Nishio, Makoto*, + , *COM-M Apr 93* 62-68
Optical switches; cf. Optical fiber switches
OSI; cf. Open Systems Interconnection

P

Packet switching
coding and networking techniques for high-quality networking of audio-visual information. *Jayant, Nikil, COM-M Sep 93* 84-95
telecommunication services on public switched telephone and packet data networks in China. *She, Qijiong*, + , *COM-M Jul 93* 30-33
wavelength-, time-, code-, and space-division approaches to photonic fast packet switching. *Jajszczyk, Andrzej*, + , *COM-M Feb 93* 58-65
Packet switching; cf. Asynchronous transfer mode
Paging communication
R&D activities on digital radio, satellite communication, and mobile radio systems in China. *Yao, Yan*, + , *COM-M Jul 93* 42-45
Pattern classification; cf. Speech recognition
Pattern recognition; cf. Speech recognition
Personal communication services; cf. Land mobile radio cellular systems
Petri nets
framework for specifiying goal-oriented network management systems. *Bean, Angelo*, + , *COM-M May 93* 30-36
Phase-shift keying
tutorial on defining, designing, and evaluating digital communication systems. *Sklar, Bernard, COM-M Nov 93* 92-101
Photonic...; cf. Optical...
Planning; cf. Communication system planning
Portable radio; cf. Paging communication
Posner, Edward C.
obituary. *McEliece, Bob, COM-M Nov 93* 8-9
Privacy; cf. Cryptography
Programming; cf. Computer languages
Protocols
evolution of customer premises equipment and its role in deployment of intelligent network capabilities. *Burson, Audrey F.*, + , *COM-M Jan 93* 15-19
Protocols, access
status and technology of mobile telephone and data networks in Europe. *Arnbak, Jens C., COM-M Sep 93* 74-82
Protocols, transport
book review; XTP—The Xpress Transfer Protocol (Strayer, W. T., et al.; 1992). *Zitterbart, Martina, COM-M Jun 93* 16, 18, 20
GSM (global system for mobile telecommunications) structure and protocol architecture. *Rahnema, Moe, COM-M Apr 93* 92-100
Pseudonoise-coded communication
tutorial on defining, designing, and evaluating digital communication systems. *Sklar, Bernard, COM-M Nov 93* 92-101
Publishing; cf. Copyright protection

Q

Queued communication; cf. Buffered communication
Queuing analysis
models, architectures, and traffic performance of input queuing, shared queuing, and output queuing ATM switches. *Pattavina, Achille, COM-M Feb 93* 38-48

R

Radio communication; cf. Digital radio; Microwave radio communication
Random-access communication; cf. Multiaccess communication
RD&E
overview of optical device research in China. *Zhou, Bingkun, COM-M Jul 93* 62-65
R&D activities on digital radio, satellite communication, and mobile radio systems in China. *Yao, Yan*, + , *COM-M Jul 93* 42-45
status of R&D on optical fiber communications systems in China. *Ye, Peida*, + , *COM-M Jul 93* 48-50
Real-time systems
DSP-based hardware and software tools for real-time speech-processing research. *Snyder, J. H.*, + , *COM-M Nov 93* 64-74
Reliability; cf. Availability
Reliability estimation
framework for measuring outages in circuit-switched telecommunications networks. *Daneshmand, Mahmoud*, + , *COM-M Jun 93* 34-38
measuring and analyzing reliability of local exchange carrier telephone networks and switching. *Fagerstrom, Richard*, + , *COM-M Jun 93* 44-48
Research, development, and engineering; cf. RD&E
Reviews; cf. Book reviews
Routing; cf. Communication switching
Rule-based systems; cf. Expert systems

S

Satellite communication
book review; Satellite Communication Systems Engineering, 2nd edn. (Pritchard, W. L., et al.; 1993). *Huang, Chungyu, COM-M Sep 93* 20, 22
R&D activities on digital radio, satellite communication, and mobile radio systems in China. *Yao, Yan*, + , *COM-M Jul 93* 42-45
satellite and terrestrial microwave communications deployment in public switched telephone network. *Liu, Shen, COM-M Jul 93* 38-40

Schottky FET logic circuits; cf. MESFET integrated circuits
Semiconductor lasers; cf. Optical fiber transmitters, lasers
Semiconductor switches
photonic ATM switch based on vertical-to-surface-transmission electrophotonic devices. *Nishio, Makoto, + , COM-M Apr 93* 62-68
Signal analysis
book review; Linear Systems and Signals (Lathi, B. P.; 1992). *Li, Chung-Sheng. COM-M May 93* 5
Signaling systems; cf. Communication system operations and management
Signal processing; cf. Image processing; Optical signal processing; Speech processing
Simulation
book review; Simulation of Communication Systems (Jeruchim, M. C., et al.; 1992). *Tranter, William H., COM-M Apr 93* 18, 20-21
Singapore
IT2000 project, Singapore's national information technology effort towards creating an intelligent island. *Motiwalla, Juzar, + , COM-M Oct 93* 28-34
Software
DSP-based hardware and software tools for real-time speech-processing research. *Snyder, J. H., + , COM-M Nov 93* 64-74
Software; cf. Communication system software; Computer languages; Database management systems; Design automation
Software design/development
book review; C++ Programming Style (Cargill, T.; 1992). *Chen, Jeng-Chun J., COM-M Aug 93* 12
specifying telephone systems software in LOTOS language to avoid feature interactions. *Boumezbeur, Rezki, + , COM-M Aug 93* 38-45
Software design/development; cf. Object-oriented programming
Software development environments; cf. Computer languages
Software documentation; cf. Documentation
Software protection
how Computer Associates vs. Altai decision redefines copyright protection for software (Communications and the Law). *Newman, David B., Jr., COM-M Jan 93* 75
Software requirements and specifications
specifying telephone systems software in LOTOS language to avoid feature interactions. *Boumezbeur, Rezki, + , COM-M Aug 93* 38-45
Source coding
coding and networking techniques for high-quality networking of audio-visual information. *Jayant, Nikil, COM-M Sep 93* 84-95
Source coding; cf. Cryptography; Image coding; Speech coding
Space-division switching
wavelength-, time-, code-, and space-division approaches to photonic fast packet switching. *Jajszczyk, Andrzej, + , COM-M Feb 93* 58-65
Special issues/sections
changing role of switching in the telecommunications network. *COM-M Jan 93* 12-13, 15-24, 26-32, 34-36
current trends in intelligent buildings. *COM-M Oct 93* 18, 21-26, 28-34, 36-38, 40-48, 50-61
dependability of network services. *COM-M Jun 93* 27-32, 34-38, 40-48, 50-57
divestiture: ten years later. *COM-M Dec 93* 17-62
high-speed ATM switching. *COM-M Feb 93* 26, 28-48, 50-56, 58-65
managing feature interactions in telecommunications systems. *COM-M Aug 93* 16-58, 60-66
marching toward the global intelligent network. *COM-M Mar 93* 22-28, 30-36, 38-76, 78-92
OSI network management systems. *COM-M May 93* 18-36, 38-44, 46-58, 60-74, 76-81
SDH/SONET. *COM-M Sep 93* 30-40, 42-50, 52-62, 64-73
selected papers from 14th (1992) International Switching Symposium (special section). *COM-M Apr 93* 26, 28, 30-52, 54-60, 62-68, 70-82, 84-88
speech processing. *COM-M Nov 93* 24-44, 46-62, 64-74, 76-83
telecommunications in China. *COM-M Jul 93* 14, 16, 18-22, 24-28, 30-40, 42-50, 52-60, 62-72
topics in PCS (special section). *COM-M Apr 93* 90, 92-100, 102-108
Speech ...; cf. Speech processing
Speech coding
advances in coding and compression technology for telecommunication systems in China. *Zhong, Yi X., COM-M Jul 93* 70-72
algorithms and standards for wideband speech and audio coding. *Noll, Peter, COM-M Nov 93* 34-44
effects of PCS design factors on speech codecs. *Steele, Raymond, COM-M Nov 93* 76-83
standardizing speech-coding technology for network applications. *Dimolitsas, Spiros, COM-M Nov 93* 26-33
Speech communication; cf. Integrated services digital networks; Integrated voice/data communication; Speech coding
Speech processing
DSP-based hardware and software tools for real-time speech-processing research. *Snyder, J. H., + , COM-M Nov 93* 64-74
speech processing (special issue). *COM-M Nov 93* 24-44, 46-62, 64-74, 76-83
Speech recognition
fundamentals and applications of speech recognition. *Roe, David B., + , COM-M Nov 93* 54-62
Speech synthesis
speech synthesis from unrestricted text for telecommunications applications. *Levinson, Stephen E., + , COM-M Nov 93* 46-53
Spread-spectrum communication; cf. Pseudonoise-code communication
Standards
China's concept and hierarchy for telecommunications standards. *Qian, ZongJue, COM-M Jul 93* 24-28
European perspective on telecommunication systems evolution. *Mossotto, Cesare, COM-M Aug 93* 52-58
framework for measuring outages in circuit-switched telecommunications networks. *Daneshmand, Mahmoud, + , COM-M Jun 93* 34-38
limitations of data transmission over analog cellular networks; standardization of data services for TDMA digital cellular networks. *Weissman, David, + , COM-M Feb 93* 68-77
Standards; cf. ANSI standards; CCITT; ISO; Open Systems Interconnection
Subscriber networks; cf. Integrated services digital networks; Optical fiber subscriber networks
Sumner, Eric Eden
obituary. *Andrews, Fred, COM-M Feb 93* 10
obituary. *Green, Paul, COM-M Mar 93* 4
Switches/switching; cf. Optical switches; Semiconductor switches
Switching Symposium, 14th (1992) International
selected papers (special section). *COM-M Apr 93* 26, 28, 30-52, 54-60, 62-68, 70-82, 84-88
Switching systems; cf. Communication switching
Synchronization; cf. Frame synchronization
System availability; cf. Availability

T

TDMA; cf. Time-division multiaccess
Technological innovation
Bellcore's president on strategic technology for next ten years and beyond. *Heilmeier, George H., COM-M Dec 93* 30-34
technology's role in switching systems evolution. *Ebert, Irving, + , COM-M Jan 93* 26-32
Telecommunication; cf. Communication...
Telemetry; cf. Optical fiber telemetry
Telephone switching; cf. Communication switching
Telephone systems
satellite and terrestrial microwave communications deployment in public switched telephone network. *Liu, Shen, COM-M Jul 93* 38-40
Telephone systems; cf. Communication system...
Text processing; cf. Document handling
Throughput (communication systems); cf. Information rates
Time-division multiaccess
limitations of data transmission over analog cellular networks; standardization of data services for TDMA digital cellular networks. *Weissman, David, + , COM-M Feb 93* 68-77
Time-division multiplexing; cf. Asynchronous transfer mode
Time-division switching; cf. Packet switching
Traffic control; cf. Communication switching
Transforms; cf. Wavelet transforms
TV; cf. Cable TV
Twisted-pair cables
issues in FDDI standardization concerning low-cost fiber and twisted-pair media-dependent physical layers, SONET mapping, and FDDI follow-on LAN. *Jain, Raj, COM-M Sep 93* 98-105

U

United States
advanced intelligent networks implemented by US regional telephone companies. *Russo, Peter A., + , COM-M Mar 93* 56-63
North American ISDN users' forum for expediting development of national ISDN. *Stokesberry, Dan, + , COM-M May 93* 88-94
United States; cf. Governmental activities/factors
US; cf. United States
User interfaces; cf. Communication system interfaces

V

Very-large-scale integration
VLSI technology and ASIC development in China for telecommunications. *Feng, Chongxi, + , COM-M Jul 93* 66-69
VLSI; cf. Very-large-scale integration

W

Wavelength-division multiplexing
wavelength-, time-, code-, and space-division approaches to photonic fast packet switching. *Jajszczyk, Andrzej, + , COM-M Feb 93* 58-65
Wavelet transforms
book review; Wavelets and Applications (Meyer, Y., Ed.; 1992). *Vetterli, Martin, COM-M Mar 93* 18
Wide-area networks; cf. Computer networks
Wire communication
present status and outlook of line transmission systems in China. *Qiu, Shouhuang, COM-M Jul 93* 46-47
Wire communication; cf. Optical fiber communication
Wire communication cables; cf. Twisted-pair cables
Wire telemetry; cf. Optical fiber telemetry
Workstations
B-ISDN multimedia workstation architecture supporting groupware applications. *Sakata, Shiro, COM-M Aug 93* 64-67
Writing; cf. Documentation
